

# 南开有机化学讲座

## New Methods for C-H Bond Functionalization

**报告人: Olafs Daugulis 教授**  
**休斯敦大学 (美国)**

### 报告人简介：

Prof. Olafs Daugulis received PhD degree (1999) at University of Wisconsin-Madison, working with Prof. E. Vedejs. He was a postdoctoral associate at University of North Carolina at Chapel Hill with Prof. M. Brookhart (2000-2003). He is currently professor and R. A. Welch Chair at the department of chemistry, University of Houston. Prof. Daugulis is a recipient of many prestigious awards, including Camille Dreyfus Teacher-Scholar Award (2008), A. P. Sloan Fellowship (2008), Normann Hackerman Award in Chemical Research (2013), ACS Cope Scholar Award (2014), and a Foreign Member of Latvian Academy of Science. His research interest is focused on new metal-catalyzed organic reactions and polymer chemistry.

**报告时间：2018年5月18日(周五)10:00**

**报告地点：元素所石先楼学术报告厅**

**元素有机化学国家重点实验室**
