

元素有机化学国家重点实验室

State Key Laboratory of Elemento-Organic Chemistry
Nankai University

学 术 报 告

报告题目: **Hydrofunctionalization with s-Block Metal Catalysts**

主讲人: **Prof. Dr. Matthias Westerhausen**

Institute of Inorganic and Analytical Chemistry,
Friedrich-Schiller-Universität Jena, Germany

Matthias Westerhausen教授简介

1996-2004 Professorship for inorganic chemistry at the Ludwig-Maximilians-Universität in Munich.

2001-2004 Vice president of the Ludwig-Maximilians-Universität in Munich.

since 2004 Chair for inorganic chemistry at the Friedrich-Schiller-Universität in Jena.

The research areas of the group include the organometallic chemistry and coordination chemistry: d^0/d^{10} organometallic compounds; Catalysis with s-Block Metal Catalysts (Hydroamination, Hydrophosphination...); CORMs (CO releasing molecules); BOXes (Bilirubin oxidation end products)

报告时间: 2017年11月2日(周四) 下午16:00

报告地点: 元素所石先楼二楼学术报告厅

欢迎师生参加!
